## Fund Manager Commentary

During the month under review, the Fund posted an annualized return of 13.2% as compared to the benchmark return of 6.5%. Outperformance of the Fund during the month is due to profit payment of non performing Household Goods sector and cement sub-sector Sukuks. During FYTD, the Fund has posted 9.3% annualized return versus 6.5% by the benchmark, hence an outperformance of 2.8% p.a. This outperformance is net of management fee and all other expenses.

The allocation in corporate Sukuks with current Weightage at 26% is diversified among Cement, Electricity, and Fertilizer sector. Around 9.0% of the portfolio is allocated to AAA rated GoP Ijarah Sukuks which coupled with 58.4% allocation in bank deposits provides diversification and liquidity to the portfolio. Going forward, the Fund intends to maintain the present allocation.

The weighted average Yield-to-Maturity (YTM) of the sukuk portfolio is around 19.5% p.a. and weighted average time to maturity is 1.72 years. The weighted average time to maturity of the Fund is 0.61 years. Hence, for investors with medium to long term investment horizon, the Fund offers an attractive opportunity to earn decent returns. However, since Sukuks prices may go up or down, therefore, only investors with medium-term investment horizon are advised to invest in this Fund.
