Fund Manager's Commentary

During the month of March 2010, the unit price of NAFA Islamic Income Fund declined by 0.25%. This is due to trading of a Household goods sector TFC at very depressed prices.

The past performance of the Fund has not been encouraging. At the same time, we believe that the current Sukuk prices are very attractive, and the Sukuk portfolio is expected to perform well over next couple of years. For new investors who want to invest in Islamic avenues only, we believe, NIIF provides them an opportunity to out-perform the rates available with Islamic Banks over a one year horizon.
