## Investment Objective

To seek maximum possible preservation of capital and a reasonable rate of return via investing primarily in Shariah Compliant money market & debt securities having good credit rating and liquidity.

## Fund Manager Commentary

The Fund earned an annualized return of 21.39% during March 2011. This is better than the benchmark return by 14.13%. The annualized return for the third quarter of FY-11 is 14.86%, which is better than the benchmark return by 7.46%. The Fund's return is expected to remain attractive in the future as well.

Your Fund is invested in Sukuks of Cement aside from Fertilizer and Consumer Electronics sub-sectors. Around 15% allocation to Government Ijara Sukuk and 12% in bank accounts provides further diversification.

The annual Yield-to-Maturity of Sukuk portfolio in your Fund is around 22.7% and the weighted average time to maturity is 3.1 years. The weighted average maturity of your overall Fund is 2.5 years. Hence the fund, for investors with an investment horizon of three to four years, offers an attractive opportunity to earn handsome returns, as evident by its current annual yield to maturity. However, since there are Sukuks in the portfolio and their prices may go up and down, only long-term investors are advised to invest in this Fund.
