Fund Manager Commentary

The Fund earned an annualized return of 7.3% during the month versus the Benchmark return of 5.0%. Since its launch in November 2009, the Fund offered an annualized return of 9.4% against the Benchmark return of 7.6%, hence an outperformance of 1.8% p.a. This outperformance is net of management fee and all other expenses.

NSPF is one of the highest rated income funds in the market due to its restrictive investment guidelines. The Fund is allowed to invest in Government Securities up to a maximum maturity of 3 years and also in debt securities with rating of A and above with a maximum remaining maturity of 1 year. The Fund invests 25% of its assets in less than 90 days T-Bills or saving accounts with banks, which further enhances liquidity profile of the Fund.

The portfolio of NSPF is invested in Treasury bills, MTS, and bank deposits etc. The allocation in MTS is around 31.1%. The weighted average time to maturity of the entire Fund is around 37 days. Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.

During the month, SBP maintained the Discount Rate in its Monetary Policy announcement on July 25, 2015, which was in line with market expectation. We will rebalance the allocation of the fund proactively based on the capital market outlook. As per the latest amendments in tax laws the Fund is not required to provide for Workers Welfare Fund (WWF) from July 01, 2015 that will improve the performance of the Fund.
