The Fund earned an annualized return of 7.4% during the month versus the benchmark return of 6.8%, thus depicting an out-performance of 0.6% p.a. NSPF is one of the highest rated income funds in the market due to its restrictive investment guidelines. It cannot invest in any avenue which has more than six months maturity nor can it invest in debt securities and Equities. Moreover, it cannot invest in money market instruments below credit rating of 'AA-'.

The portfolio of NSPF is invested in Treasury bills, MTS and bank deposits etc. The allocation in MTS is around 5.92%. The weighted average time to maturity of the entire Fund is around 6 days.

Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.

We are monitoring the developments in capital market conditions and will position the portfolio allocation accordingly.
