NSPF is one of the highest rated income funds in the market due to its restrictive investment guidelines. Effective December 20th, 2014 the Fund is able to invest in Government Securities up to a maximum maturity of 3 years and also in debt securities with rating of A and above with a maximum remaining maturity of 1 year. The Fund invests 25% of its assets in less than 90 days T-Bills or saving accounts with banks, which further enhances liquidity profile of the Fund.

The portfolio of NSPF is invested in Treasury bills, MTS and bank deposits etc. The allocation in MTS is around 33.4%. The weighted average time to maturity of the entire Fund is around 43 days.

Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.
