Investment Objective

To minimize risk, preserve capital and generate a reasonable return along with a high degree of liquidity from a portfolio primarily constituted of bank deposits and money market instruments.

Fund Manager Commentary

The Fund earned an annualized return of 8.2% during the month versus the Benchmark return of 7.4%. Since its launch in November 2009, the Fund offered an annualized return of 9.6% against the Benchmark return of 7.8%, hence an outperformance of 1.8% p.a. This outperformance is net of management fee and all other expenses.

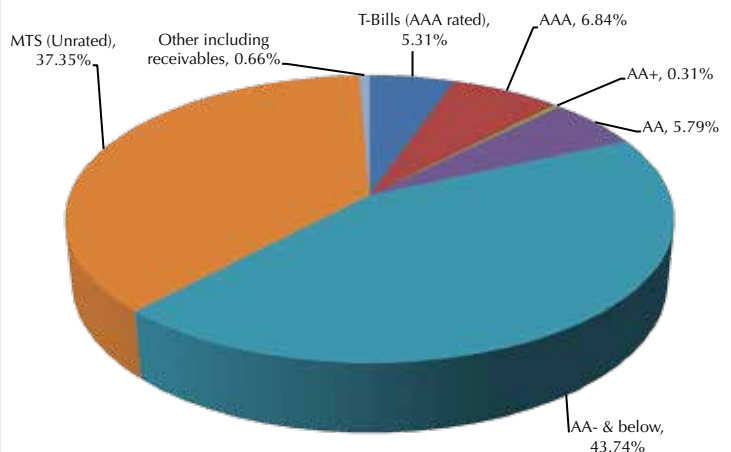

NSPF is one of the highest rated income funds in the market due to its restrictive investment guidelines. It cannot invest in any avenue which has more than six months maturity nor can it invest in debt securities and Equities. Moreover, it cannot invest in money market instruments below credit rating of 'AA-'.

The portfolio of NSPF is invested in Treasury bills, MTS, Commercial Paper and bank deposits etc. The allocation in MTS is around 37.4%. The weighted average time to maturity of the entire Fund is around 38 days.

Our internal guidelines permit MTS financing in only fundamentally strong companies with lower volatility. It is pertinent to mention that in this asset class the Fund provides financing at only pre-determined rates of return with no direct exposure to the stock market.

We are monitoring the developments in capital market conditions and will position the portfolio allocation accordingly.
